

Remarks

The present amendment inserts new figures into the application. These figures graphically represent the peaks of the compounds and are not required for understanding the claimed subject matter. The figures show powder X-ray diffractograms with the peaks described in claims 1, 3 and 5 and page 11 of the present application. The figures do not add new matter because the peaks are listed in the originally filed claims and page 11 of the application. The figures are simply a visual representation of the peaks which are listed. Page 11 of the present application references the figures which were included in the priority document and which are the same as the attached figures. In view of this, applicants request that these figures be inserted into the present application prior to examination on the merits.

In the event this paper is not considered to be timely filed, the Applicant respectfully petitions for an appropriate extension of time. Any fee for such an extension together with any additional fees that may be due with respect to this paper, may be charged to Counsel's Deposit Account No. 02-2135.

Respectfully submitted,

By
